## TURKS CONCEAL ADVANCE OF TROOPS

### GIRL IS MISSING FROM HER GRAVE; WOMAN QUIZZED

Wife of Garage Man Held  
for Questioning by  
Police Today.

### CHARRED BODY FOUND

Torso, Thought to be That  
of Man, May be of Girl  
Buried Recently.

(By the Associated Press)

ST. LOUIS, Sept. 28.—Gertrude Brenn, 22 years old, wife of Harry Brenn, proprietor of a garage at Oakville, Mo., who disappeared after a fire destroyed his place of business last Tuesday, today was subjected to further questioning by the police, who are investigating the mysterious theft of the body of Miss Schneider, 18, who was buried a month ago, from its grave in a local cemetery.

A charred torso which at first was thought to have been that of Brenn, who was believed to have been burned to death, was found in the ruins of the fire, but after it was examined the autopsy surgeon declared it was the body of a woman.

Detectives announced they were working on the theory that the burned torso may be the body of the Schneider girl.

Carried Life Insurance  
Brenn has been missing since Monday night, when his wife said he answered a call for road services. He is reported to have carried sixteen thousand dollars in life insurance.

Mrs. Brenn is mourning her husband as dead. When arrested, mourning clothing was found in her possession. During cross questioning by the police, she steadfastly denied knowledge of her husband's whereabouts, saying that she believed he perished in the fire.

The police reported finding a broken shovel, a piece of clothing thought to have been part of a shroud, and an electric flash light in the debris of the garage.

Mrs. Brenn, who has a child one year old, told detectives she requested that the body of her husband be cremated so that she would be able to convey his remains back to her home in Germany, where they were married while Brenn was in the American Army of Occupation.

### GRID MEN EAGER TO OPEN SEASON HERE TOMORROW

More than \$500 worth of athletic tickets have been sold by Ada high school, Prof. W. A. Hill announced today. This is the best support ever given a football team at the local institution. Mr. Hill expressed his thanks and those of the school to the business men and others who responded and made it possible to continue athletics at the local school.

Four home games are now assured. Okmulgee will be here tomorrow for the opening game and the school is anxiously looking forward to this as the most important game of the season. Its importance is intensified by the "revenge motive" which the locals have in seeking a battle.

Atoka is being considered for the Turkey Day game. Atoka handed Ada a nasty defeat at the offset of the season in 1921 and the locals also want revenge. Other schools, including Tishomingo Aggies, who went down in defeat on College Field before Coach Cox's squad are being considered for games here.

Local football fans will now have the same opportunity to see the local boys in the fight on high school gridiron as they did in former years. Mr. Hill is confident the support would be great enough to put the football season through without financial loss.

### WHOLE NAVAL GARRISON IS KILLED BY EXPLOSION

(By the Associated Press)

SPEZIA, Sept. 28.—The entire naval garrison at Falconara Fort near here, on the Gulf of Genoa, is believed to have been killed in an explosion, caused by lightning which destroyed everything within a radius of ten miles. There are many hundreds of wounded.

### ARREST YOUNG GIRL IN DOUBLE SLAYING

Rev. Edward Wheeler Hall and Mrs. Eleanor Mills, in garb worn at a church fair.

Pearl Bahmer, fifteen, who discovered the bodies of the Rev. Edward W. Hall and Mrs. Eleanor E. Mills in a field outside of Brunswick, N. J., a week ago, has been arrested and imprisoned in Middlesex county jail. She has been quizzed for hours.

### NIGHT CLASS NOW ASSURED FOR ADA

Hill Reports Big Demand  
From Working Students  
for Education.

A night school for Ada high is now assured. So much interest has been shown by students during the past few days, Prof. W. A. Hill, high school principal said, that he was confident a large class could be enrolled.

More than a score of boys and girls who are unable to attend school have signified their intention to join the class. It will be necessary, however, for each of these prospective students to submit their name and the studies they want in writing to Mr. Hill this week in order that steps may be taken to organize the class next week. Those who are intending to join the class are requested to do this at once.

Only expense to the students who take the work will be a small enrollment fee, Mr. Hill said. This is necessary to offset the extra expense of establishing a special file for the students. Instructors will be furnished, equipment of the high school will be used and every convenience and effort possible will be brought forth to help those who are endeavoring to advance their education, although it takes their leisure time to do it, Mr. Hill declared.

Hours the school will be in session have not been named. Courses to be offered will be decided by the demand.

A number of girls working at the glass plant have asked to be admitted. Other girls of the city who work by day and wish to get an hour's schooling will be admitted, Mr. Hill said. If prompt action is taken this week by the prospective students, the class will be meeting regularly next week.

### Identity of Man Who Was Shot in Hog Pen Mystery to Officers

KANSAS CITY, Sept. 28.—Police today were attempting to identify a man shot and killed last night by Charles Wait, a farmer living near here, who claims that the man was in his hog pen. Monday and Tuesday nights, Wait said, hogs had been stolen from his pen.

Last night, while standing guard with a shot gun, three men approached his pen, Wait told the police. The men outside the pen escaped. Wait was not held by the police.

### TWO CONVICTED AT ARDMORE ON MURDER COUNTS

Record of Third District  
is Shattered Today in  
Double Action.

### BOWMAN SENTENCED

Youth Held Upon Charge  
of Killing Old Man  
Gets Life Term.

(By the Associated Press)

ARDMORE, Sept. 28.—Every known record in the third court district of Oklahoma was shattered here yesterday when two juries trying two important murder cases, returned verdict of guilty in each and named the same penalty of imprisonment of the accused for life.

The two principals against whom the penalties were assessed were Willie Bowman, youth charged with killing an elderly man here two months ago, and Oscar Van Noy, former state conservation officer, and member of a prominent family here, who was charged with having driven the car which last October caused the fatal injury to Lola and Josephine Wilson and serious injury to Ruby Wilson and S. T. Wilson, father of the three girls.

Plead Insanity  
Attorneys for Bowman worked on a plea of insanity, the youth having been gassed and wounded during the world war. Garvin county officials pleaded that if the jury acquitted the accused he would "be taken care of" in his home county.

The state alleged Van Noy had been drinking. The accident caused a furor of public sentiment against Van Noy in Ardmore. Van Noy admitted he was under the influence of liquor when the accident occurred and gave that as his reason for not stopping, after the crash. He surrendered to Buck Garrett, sheriff, the next morning.

Wesley Johnson, charged jointly with Van Noy and said to have been in the car with him on the night of the tragedy, probably will not be tried at this term of court, Judge B. C. Logsdon announced this morning.

### Train Dispatchers Will be Rated by U. S. Labor Board

(By the Associated Press)

CHICAGO, Sept. 28.—The Railroad Labor board began a hearing today of to determine whether chief and assistant train dispatchers are officials or subordinate officials, under the classification of the Transportation act of 1920. The American Train Dispatchers Association contends that they are subordinate officials while some of the railroad executives would class them as officials. If they are classed as subordinate officials, the association asserts, the railroads must recognize the eight hour day and the six day week in their branch of the service. The board also will be asked to decide whether the dispatchers shall retain the privilege of vacations.

The executive board, trustees and general chairman of the American Train Dispatchers Association will assemble here September 28. They will present their case to the board during the days of the hearing and will hold sessions in the evening to determine further policies.

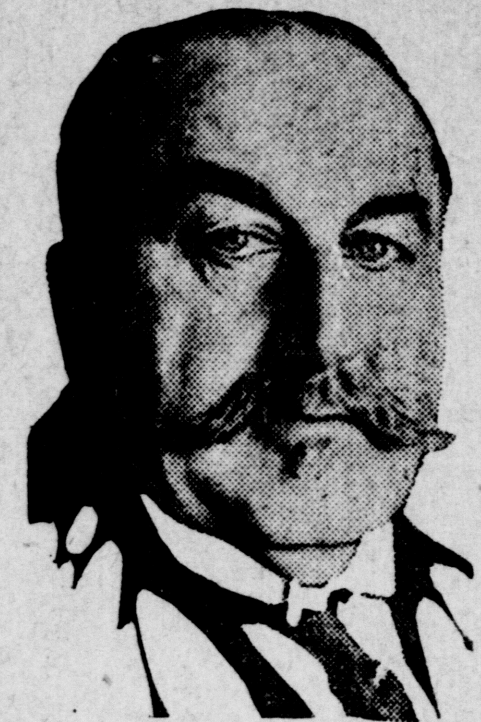

### Pair Charged With Adultery Released After Preliminary

Lee Perry and Alice King, both Indians of the Steedman community, were released Wednesday by Justice of the Peace H. J. Brown following their preliminary hearing on a charge of adultery. Justice Brown held that testimony given by the state was insufficient.

A complex angle is said to have been added to the case by the fact that Mack King, complaining witness, had been mentioned as defendant in a divorce action filed recently in district court by Alice King, and now pending. A 13-year old boy appeared as principal witness for the prosecution.

North Carolina is the only state whose governor does not have the power to veto acts of the legislature.

### BELGIAN FINANCIER GOES TO GERMANY FOR REPARATIONS

M. Delacroix, chief of the Belgian financial mission to Germany, has been appointed to negotiate the acceptance of German treasury bonds as reparations payments.

### 260 HIGH SCHOOL STUDENTS SUFFER FROM POISONING

Tainted Sandwiches Put  
Many on Absent Roll  
At Birmingham.

### FOOTBALL MEN SICK

21 Teachers Are Stricken  
But All Will Recover  
Doctors Believe.

BIRMINGHAM, Ala., Sept. 28.—A roll call at Woodlawn high school today showed 260 students absent as a result of food poisoning yesterday.

While many of the students affected were violently ill for a time, it was said that all were out of danger today except one.

Investigation indicated that the students were poisoned by eating sandwiches made from ground beef, cabbage, celery and pickles at the school cafeteria.

The entire football squad piled up in a heap while at practice shortly after partaking of the sandwiches.

The condition of the only student considered seriously ill today was described by physicians as "very grave." Her sister, who was violently ill during the night, was said to have passed the crisis and would recover.

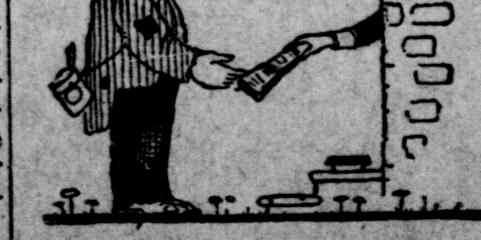

Four of the 21 teachers stricken were unable to resume their duties today it was said.

### SENATOR WATSON IS LAID TO REST BY HIS ADMIRERS

THOMPSON, Ga., Sept. 28.—Beneath a clear sky and blazing sun, the body of Senator Tom Watson arrived here today and was laid to rest in the soil of McDuffie county as thousands of countrymen from Georgia's backwoods united with prominent officials and leaders in paying a last tribute to his memory.

Brief and simple were the funeral services at "Hickory Hill," the Watson home, but every honor within the province of the town was paid the departed senator.

### Go-Getters

When Tramps Call  
If any tramp in search of "work" Should pester you today, Just hand him out the want ad page And send him on his way.

### CITY LANDS 1923 REUNION OF U.C.V. WITH LANDSLIDE

Gray Veterans in Meeting  
at Shawnee Favor Ada  
Unanimously.

### REMEMBER OLD TIMES

Pontotoc County Has Warm  
Spot in Hearts of 200  
South Defenders.

Ada will entertain the 1923 state reunion of United Confederate Veterans and affiliate organizations.

Local delegates now in attendance at the Shawnee convention, which is scheduled to close today, won this honor by a unanimous vote when the selection of a meeting place for next year was balloted upon at a business session last Wednesday.

Strong sentiment in favor of Ada was said to have been demonstrated by the veterans throughout the meeting. This is believed to have resulted from hospitable treatment extended to the state U. C. V. during the previous state conventions held here.

Tom D. McKeown of this city, Luther Harrison of Holdenville, and Prince Freeling, former attorney general of Shawnee, addressed the veterans Wednesday afternoon and an old fashioned "Virginia Reel" was stage Wednesday night. Concluding sessions of the convention are being held today.

Many Ada Folks There  
Ada is reported to have had one of the biggest delegations at the Shawnee meeting. About 30 veterans, their wives, sons and daughters went. Railway fare of veterans were paid by local subscription.

Several members of the Ada delegation returned to the city Wednesday night and others were arriving today. J. A. McKellar, one of the sons, came in last night and reported a successful convention at Shawnee with approximately 200 veterans present. Meals were served free to survivors of the Confederacy and royal entertainment furnished throughout the meeting.

### COTTON SEASON WELL ADVANCED AROUND KONAWA

(By the Associated Press)

WARSAW, Mo., Sept. 28.—Chambers Buckley, 70, and his son, Earl, 36, are in custody here today charged with the murder of Alfred Lutman, a recluse farmer living 16 miles southeast of Warsaw.

Claude Estes, 19, was arrested last Friday and has signed a confession, according to the police, stating that he was hired by the two Buckleys to commit the murder for \$25.

Lutman was killed by being shot in the back twice and in the head with a .32 caliber revolver, about June 17. His body was found in a thicket on his farm about four weeks later.

Estes, according to his alleged confession, went to Kansas after the shooting and worked on a farm during the harvest, returning to Benton county about the time the body was found. Estes is being held in the county jail.

The Buckleys were arrested last night. The date of their preliminary trial is to be set late today.

### Oil Field Accident is Fatal to Konawa Boy Caught in Crash

(By the Associated Press)

KONAWA, Sept. 28.—(Special)—Work on the test well three miles northwest of Konawa is continuing, reports state. The well is now down about 800 feet and is being drilled by Robnet and associates.

An accident resulting in the fatal injury to John Robnet's son has occurred since the test well was started. Three weeks ago, while he and his eight year old son were returning to the well from town on a truck carrying oil well supplies, the driver lost control, allowing the car to plunge off a bridge. The boy was caught beneath the truck and crushed to death. No one else was injured.

This is the second test well ever drilled in the Konawa district, the first one being put down three miles east of town.

Mrs. Benton McMillan, wife of former Governor McMillan, is a candidate for the office of state treasurer in Tennessee.

Japan has 117 pencil factories.

### TURKS HEED ORDER OF BRITISH CHIEFS

Above, Vice Admiral Sir Osmond Brock. Below, Lieut. Gen. Sir Charles Harrington.

Kemalist Turks have heeded the warning of Britain's military and naval chiefs, Gen. Sir Charles Harrington and Vice Admiral Sir Osmond Brock, at Constantinople and have retired from the so-called neutral zone along the Dardanelles.

### MAN AND SON ARE HELD FOR MURDER

Two Buckleys Hired Third  
Man to Kill Recluse  
is Allegation.

(By the Associated Press)

WARSAW, Mo., Sept. 28.—Chambers Buckley, 70, and his son, Earl, 36, are in custody here today charged with the murder of Alfred Lutman, a recluse farmer living 16 miles southeast of Warsaw.

Claude Estes, 19, was arrested last Friday and has signed a confession, according to the police, stating that he was hired by the two Buckleys to commit the murder for \$25.

Lutman was killed by being shot in the back twice and in the head with a .32 caliber revolver, about June 17. His body was found in a thicket on his farm about four weeks later.

Estes, according to his alleged confession, went to Kansas after the shooting and worked on a farm during the harvest, returning to Benton county about the time the body was found. Estes is being held in the county jail.

The Buckleys were arrested last night. The date of their preliminary trial is to be set late today.

### Constantine Is Reported Jailed

(By the Associated Press)

CONSTANTINOPLE, Sept. 28.—Former King Constantine of Greece, who abdicated yesterday, is reported to have been imprisoned by the revolutionaries in Athens.

Business Goes Forward  
(By the Associated Press)

KANSAS CITY, Sept. 28.—Business in general has moved forward on a basis of fundamental soundness in spite of strikes and bad crops and the long session of unprecedented hot and dry weather, according to the monthly review of the federal reserve bank of Kansas City, made public today.

Marriage License  
Dock Brooks, 25, Ada, and Miss Ida Brown, 24, Ada.

### ENGLAND THINKS PASHA STRATEGY COVERS DANGERS

Moslem Commander May be  
Planning to Force  
British to Fire.

### INVADES PEACE ZONE

But London Hopes That  
Kemalists Did Not  
Know Borders.

(By the Associated Press)

LONDON, Sept. 28.—British government circles today took a grave view of the situation in the Dardanelles, which was regarded as so critical as to overshadow the revolutionary developments in Greece. The opinion was expressed that there is a greater prospect of fighting between the British and Turkish nationalists than at any previous time.

Two views may be taken of Mustafa Kemal's intention, it is stated. One is that under cover of his cavalry he may be bringing up artillery and material, and doing all he can to compel the British to fire the first shot. The less serious view is that he is truthful in his statements that he does not know where the neutral zone extends.

In his reply Mustafa Kemal says the Ankara government does not recognize any neutral zone. Allegations are made that the British have destroyed Turkish roads and Turkish homes.

Mustapha Kemal also claims the right to cross the so-called neutral zone and to enter eastern Thrace, where he claims the Greeks are killing Turkish inhabitants. He concludes by saying he hopes to avoid any conflict with the British.

### Turks Won't Allow Forts Along Straits

CONSTANTINOPLE, Sept. 28.—The Turkish nationalists have notified the allied high command that they will not tolerate the fortification of certain points in the neutral zone along the Dardanelles. Continuation of the work of fortification will be looked upon by the Kemalists as warranting military action, their representative informed Allied Commander General Harrington. The Turkish troop movements continued yesterday for the fifth time they violated the neutral zone.

### Angry Mobs Demand That King Resign

(By the Associated Press)

ATHENS, Sept. 28.—King Constantine's abdication came after dramatic scenes, with the palace surrounded by an angry mob of revolutionaries demanding his dethronement.

It was not until the mob threatened to seize the person of the sovereign that an emissary appeared at a window of the palace and announced the abdication.

General Papoulas had previously been sent to treat with the revolutionaries, but finding his entreaties unavailing, he joined their cause himself. The government then sent a second envoy, but the mob was obdurate declaring: "We are resolved to dethrone the author of Greece's misery."

A provisional revolutionary committee has been formed and has issued the following proclamation: "An accord having been reached with the government which has resigned, the provisional revolutionary committee will assume power with the least possible delay."

### Constantine Is Reported Jailed

## COTTON PRICES PROVE ELUSIVE

Market prices sometimes are difficult to understand. They should fluctuate one way and they go the other. Apparent facts, figures and logic are set at naught.

Take cotton prices just now as an instance. There is every reason why cotton should go higher, but it persistently refuses to climb. It goes up a few points, and then falls back again; goes lower, and then climbs to its old level.

"All we have seen lately is a backing and filling affair," says J. S. Oliver & Co. (New York) in its weekly review of the cotton situation. "There is every legitimate reason for the market going up and just a few excuses for it not doing so. But facts and theories, just the same as reasons and excuses, are entirely separate things. You can't talk cotton to a higher level any more than you can argue religion with a hungry man. Cotton must go higher, but when? That is the question."

What kept the cotton market from going higher last month may have been crop uncertainty or it may have been something else, but the present weight on quotations is said to be the rumor of impending war in the Near East involving Great Britain. Should England go to war with the Turks, and Russia mix in on the side of the Turks, Japan might have something to say on behalf of the British.

Anything like a second world war would affect the demand for cotton and naturally react on the prices of the supply, especially since England is one of the largest consumers of cotton. On the other hand, Continental Europe is making new headway in its textile industry and trade interests are buying steadily. It is claimed, too, that the South has hedged so much of its cotton that it is committed to the short side.

The argument appears to be largely in favor of higher prices for cotton, but even so they may suddenly go down instead of up, for who can predict with certainty the course of the weather or the markets?—Fort Worth Record.

The Turks are still in an ugly mood and may cause a lot of trouble. The Turk of today is no different from his ancestors, civilization having failed to change his brutal nature to any noticeable extent. Great Britain will be doing a great service for the whole world if she wipes the gang of cut throats from the face of the earth. However, if his bluff fails to work, Mustapha Kemal may call off his dogs of war. He knows enough to realize that Turkey cannot whip the British single handed in case they refuse to budge at his command.

"What is the world coming to?" is a question that has been asked by alarmists of every age. In spite of their fears that it was headed for the bow wows it has worked slowly forward and is still in existence. We have no reason to believe that it will change this upward course any time soon. It may be checked occasionally, but in the end the old earth will prove a pretty lasting proposition. Progress is a stronger law of nature than the tendency to approach a state of chaos and there is no need of despairing of the destiny of the race.

Heretofore it has been comparatively easy to get away with a high tariff because the people did not realize how much they were being taxed, the tariff tax being hidden in the cost of goods the consumers paid. This time high tariff bunch picked a bad time for their bill, prices already being as high as the people could stand and then some. Now when prices begin to go still higher a howl will go up that will cause Harding to think an earthquake has hit Washington. There is a limit to human endurance.

Looks like there may be no senatorial election in Texas. First the opponents of Peddy came along and protested that his name should not go on the ballot, charging that his nomination was not according to law. Now comes some of Peddy's friends making similar charges against Mayfield. If both contentions should be upheld there will be a vacancy in the senate after March 4. Sometimes the law can be made to cut some queer antics, anyway.

The high tariff was first imposed to protect the infant industries and give them a chance to get started in the face of foreign competition. Now the infants have grown to a full six feet and threaten to get out of the cradle and kick the nurse's head off if the rocking stops.

An exchange observes that when a man has been disappointed in love he consoles himself with the reflection that his former sweetheart has been disappointed in marriage. The law of compensation is always at work.

"White corn and wild oats mix readily," observes a Kansas paper.

## THE JOLLY BUCCANEERS

## The Forum of the Press

England—the Defender.  
(Hugo News)

Those who believe that "the sun of England's glory has set" may change their minds before the present trouble with Turkey is ended.

Standing practically alone, facing the hordes of fanatical Moslems who once more threaten to disrupt the peace of Europe with their blood lust, England has resumed a heroic position.

England, no matter what her other motives may be, is defending civilization. More than this, England is actually defending Christianity. The aim of the Turk is no different from what it always has been. The slaughters of Christians, for hundreds of years, prove that.

The Daily Oklahoman, in its issue of Sunday, September 24, patly sums up the Turk and his record: "The record of the Turkish butcher in the last century has been a stench in the nostrils of white men. Abdul Hamid fawned on the powers and promised reform in the seventies, but the half civilized brute that killed for religious fervor and followed his flag gaily to the cannon's mouth knew no better sport than slaying Christians. The young Turks with their progressive ideas promised better but the pitiful Christian Armenians fared worse and died in windrows to the tune of the Turkish scimitar. Today we have Mustapha Kemal and Smyrna, burned, sacked, butchered, his Christian population dead, deported, or body slaves to a sentence worse than sudden death."

This is the people with whom some of the allies would make peace. This is the nation to which some would restore Constantinople and the Dardanelles. This is the nation against which England, with its "thin red line of heroes," is standing.

The Daily Oklahoman exclaims in conclusion: "Thank God for England, unafraid, defiant, courageous, ready to stand at the end of the earth with a handful of men, and fight for right as long as blood lasts."

There can be no permanent peace with the Turk. Nations may cry peace, but there is no peace. The Turk is constitutionally unable to understand anything but might. He must be handled with an iron hand. Some force must stand at the gateway between Europe and Asia and oppose his blood's ambition.

## A Dilemma.

(American Legion Weekly)

Any foreigner of sufficient note to have his arrival on these shores chronicled in the newspapers immediately steps into the morass of a fearful predicament. He is interviewed. He is asked about America. All he can really say about America at this stage of his visit is that she seems to have a lot of water in her front yard and that for some potent reason the ship's bar was locked up half an hour ago, but he is asked none the less.

As he really becomes acquainted with America, really gains an insight into what manner of folk we are, he is still asked for his opinion. By this time he is laboring under another tremendous disadvantage. He can no longer say, "I have no opinion." He has got to say something good or bad—there is no fence of neutrality to straddle.

If he says something frankly, wholesomely critical, the nation rises in its pride to demand what business it is of his to come among us and find fault. Is his own coun-

try perfect? Has he seen all of us, or is he descending upon the entire republic after a casual tour of the New York, New Haven and Hartford Railroad?

If he says something obviously complimentary—"humph," we remark, "mere insincere flattery. If he doesn't like us why doesn't he come out with it like a man?"

There is, of course, the alternative of not asking him for his opinion at all. But then how he would hate us!

## Hitting the People Where they Live.

(Wichita Daily Times)

The democratic campaign textbook says the new tariff bill will cost the American public \$5,080,000,000 annually or an average of \$45 per capita.

With proper allowance for partisan exaggeration it must be admitted even by republicans, that the new tariff will cost a plenty and that it will get the great masses of the people right where they live—in what they eat and wear and in their houses and many others of the necessities of life.

And the measure is probably fastened upon us for a number of years. It is too much to hope that there will be sufficient democratic gains in the congressional elections this year to give the democrats control of congress and as the republicans are committed to a high protective tariff policy there is small hope for change until after 1924. It won't be calculated to make you feel any better but it will be interesting, nevertheless, to multiply \$45 by the number of members of your family and that by the number of years the tariff is likely to be in effect—three at least—and see how much it will cost you.

Before they are appointed to the police force in London, women must first pass a rigid examination as to their physical condition.

For the first time bananas are to be grown on the Pacific coast of Guatemala on a commercial scale.

## DOES LAUNDRY WORK AND HOUSEWORK TOO

## Surprised to Find Herself Feeling So Well

Taunton, Mass.—"I used to have pains

in my back and legs so badly, with other troubles that women sometimes have, that my doctor ordered me to stay in bed a week in every month. It didn't do me much good, so one day after talking with a friend who took Lydia E. Pinkham's Vegetable Compound, and I tell them how it has helped me. You can use my testimony for the good of others."

—Mrs. BLANCHETTE ST. VITA, 69 Grant St., Taunton, Mass.

"It's the same story—one friend telling another of the value of Lydia E. Pinkham's Vegetable Compound."

## Crude Oil Remains on Steady Increase Late Report Shows

(By the Associated Press)

NEW YORK, Sept. 28.—The daily average gross crude oil production of the United States increased 13,350 barrels for the week ending September 23, totalling 1,507,050 barrels as compared with 1,493,900 barrels for the preceding week, according to the weekly summary of the American Petroleum Institute.

OKLAHOMA-Kansas showed a daily average gross production of 487,350 barrels, an increase of 300 barrels. Production of the Osage nation was shown at 115,450 barrels against 116,050 barrels and output of the Lyons-Quinn pool was 16,400 barrels, against 16,500 barrels. No changes were reported in crude oil prices for the major districts.

The cutest bunch of kiddies ever screened, in a picture that is one long chain of happiness.

## "THE BACHELOR DADDY"

## Political Announcements

The News is authorized to announce the following as candidates for the offices named, subject to the action of the Democratic primary.

**State Offices**  
FOR DISTRICT JUDGE:  
J. W. BOLEN  
For State Senate:  
JOSEPH C. LOONEY

For Justice of the Peace:  
JOSEPH ANDERSON  
H. J. BROWN

For County Judge:  
TAL CRAWFORD—2nd term  
County Commissioner, Dist. No. 3:  
CHARLEY LASHMAN

For County Commissioner, District No. 1:  
H. CLAY STEPHENS—2nd term

## ELECTRIC POWER IS CENTERED IN REGION OF LAKES

FRENCH LICK, Ind., Sept. 28.—Greater quantities of electric light and power are available and more capital is invested in such enterprises in the four states of Illinois, Indiana, Michigan and Wisconsin than in any other similar sized territory in the world, Harry Reid, president of the Interstate Public Service Co., told delegates to the annual convention of the Great Lakes section, National Electric Light association here today.

"The results of such power are seen in the vast increase in industrial importance of the four states during the last ten years," he said. "Industry rapidly is moving westward from what heretofore has been regarded as the industrial center. Industrial prosperity of the section now is largely measured by the ability to produce the great volume of economical electric power that is necessary."

Mr. Reid said the utilities put forth the most strenuous efforts to protect the public during the progress of the general coal strike and that "the role utility men played in the last six months in continuing service in the face of the most trying conditions merits the most generous consideration of the entire public."

There are more automobiles in

the United States today than there are homes wired for electricity, said E. W. Lloyd of Chicago, of the Edison company. The number of residential lighting customers in the country on January 1, 1922, was 8,467,000, according to a report while the number of automobiles exceeds 10,000,000.

"Most people think of the nation as being quite extensively electrified, but automobiles outstrip the number of homes where electricity is available," said Mr. Lloyd. "In many localities this development is very backward."

## GOOD SOAP FOR LESS THAN TWO CENTS A POUND

Make It At Home By This Easy Process—Takes Less Than 30 Minutes.

Nowadays, more and more women are doing as their mothers did and are making their own soap. If you have never tried it, you will be surprised to see how easy it is to make good soap, soft soap, hard soap or floating soap, just by using kitchen scraps and waste grease together with a can of Merry War Lye, the safe and sure soapmaker.

In the old days when soap was made by the boiling process it took nearly all day to make a kettle of soap. Now it is hardly any work at all—requires no boiling—takes less than 30 minutes. Saves you money and gives you all

the pure, clean soap you need for kitchen, laundry and all household purposes.

You will find simple directions for soapmaking on the label of every can of Merry War Lye—also many other recipes such as how to make lye hominy, how to soften water, how to make clothes washing easy, how to brighten cooking utensils, etc.

Merry War Powdered Lye is also a wonderful cleaner and purifier for use about the home, barn, chicken house and outhouses. Comes in a convenient can with revolving sifting top that cannot come off, cannot get lost, recloses tightly and preserves contents. It is economical to buy and easy to use.

Ask your dealer for Merry War Lye—be sure you get "Merry War"—the lye that has made good for 33 years.

Mrs. J. W. Bolen and daughters, Misses Selma and Ruth, and John Blanford arrived in Ada the first of the week overland from Manitou, Colorado Springs and other points in Colorado. Returning they came through DeNoy, Oklahoma, and brought home Marjorie Sugg, the young daughter of Mr. and Mrs. H. P. Sugg of East Seventeenth street. Marjorie had been visiting Dr. and Mrs. R. F. King, who now live at DeNoy. Miss Ruth Bolen is entering her senior year at the high school, and Miss Selma is a student in the Teachers College.

Vegetables contain from 65 to 95 per cent water.

The Court of Honor will meet at the First Christian church Friday evening at 8 o'clock to award first and second class and merit badges. Every troop will adjourn its meeting promptly in time to come to the First Christian church. Some very interesting and important announcements will be made relative to the winter's work.

Lee Couch got busy last week and passed all of his tenderfoot tests.

When Ralph Morrow, Loran Stafford, William Roach, Carl Browall, Clinton Van Curen, Hubert Laird, Alvin Greer and George Kitchell finish just a few tests, Ada will have 20 Eagle Scouts and Pontotoc county will have 22 from Brown McCoy and Merit Young have finished their Eagle Scout tests.

Scout Executives of the United States, about 450 in number, have just held a biennial conference at Blue Ridge, North Carolina.

Eagle Scouts who enter the University of Texas, are admitted free of all matriculation fees. If the same was done by the University of Oklahoma, the consideration would amount to about \$32 for the four years.

Every Boy Scout who has a scout suit should wear it during the Odd Fellows convention next week and should do his best to do many good turns and acts of courtesy.

Troop 5 had a fine meeting Friday night. It was reorganized by Scoutmaster Roy Meeks as follows: Assistant Scoutmaster and athletic coach, Harold Strohm; Senior Patrol Leader, Clifford Elliott; Patrol Leader No. 1, Carl Browall; Patrol Leader No. 2, Vernon Witcher; Corporals for Patrol No. 1, Marshall Walters, Harvey Shipman, Bartley Meaders, Edward Gwin, Wayne Wadlington; Corporals for Patrol No. 2, Troy Weaver, Guy Sadler, Brown Mackin.

Scout Executive Harry Miller went to Lawrence today to arrange for a round-up of all scouts from Lawrence, Fitchburg and Latta.

The new Goodyear Cross-Rib Tread Cord

## A Real Cord Tire for Small Cars at a Popular Price

The new Goodyear Cross-Rib Tread Cord in the 30 x 3 1/2 inch clincher type is a tire that the small car owner will warmly welcome.

It gives him, at a price lower than the net price he is asked to pay for many "long discount" tires, every advantage of quality cord tire performance, for it is a quality tire through and through.

It is made of high-grade long-staple cotton; it embodies the reliable Goodyear quality of materials; its clean-cut tread engages the road like a cogwheel.

The scientific distribution of rubber in this tread—the wide center rib and the semi-flat contour—gives a thick, broad surface that is exceedingly slow to wear.

The tough tread stock in this tire is carried down the sidewalls clear to the bead, making it rut-proof to an extraordinary degree.

In every particular it is a representative Goodyear product, built to safeguard the world-wide Goodyear reputation.

Despite its high quality, and the expertness of its construction, it sells at a price as low or lower than that of tires which lack its important features.

The 30 x 3 1/2 inch Cross-Rib Cord-clincher **\$12.50**

This price includes manufacturer's excise tax  
Goodyear-Cross-Rib Tread Cord Tires are also made in 6, 7 and 8 inch sizes for trucks

# AMERICAN ★ LEGION

## 3000 OKLAHOMANS WILL MAKE NEW ORLEANS TRIP

More than 3000 Oklahomans will probably leave on four special trains Saturday morning October 14, for the grand celebration and reunion at the National Convention at New Orleans October 16-20. Everything is all set and final definite reservations should be made by post adjutants with local railways immediately.

All legionnaires are requested to use the special trains running over the routes selected by the Department Transportation Committee, to trains running to Ft. Worth and Houston, Texas, thence to New Orleans over the Gulf Coast Line. The routes selected to Ft. Worth are as follows: Rock Island from Medford through Chickasha; Santa Fe from Newkirk through Ardmore; Frisco from Afton through Sapulpa and Madill; Katy from Muskogee through McAlester, with connecting train from Cushing to Muskogee.

The Oklahoma delegation is promised a royal time Sunday, October 15, when they will be guests of the City of Houston, which will arrange for a side trip to Galveston. The special trains stop over there during the day.

## TEXAS VETERANS UNITE TO ENTERTAIN VISITORS

Scores of Texas posts will send delegations made up largely of the 30th and 90th division veterans to help the city of Houston entertain the Oklahoma delegation Sunday, October 15th. Many Oklahoma legionnaires will visit the veterans bureau hospital at Houston over Sunday, where many Oklahoma patients are hospitalized.

## Among Honor States.

Oklahoma is one of only 12 states which had gone "over the top" in membership standings on September 14, with 110 per cent of their 1921 strength, ranking ninth among the departments. Their standing two days later, September 16, at National headquarters will determine their position in the parade at New Orleans.

## Allied Federation Meets.

The inter-allied veterans federation will hold their annual convention October 12-13, in New Orleans. The federation is composed of ex-service men of all principal allied nations. The convention was held last year at London.

## Wear Indian Headgear.

Oklahomans visiting New Orleans will wear the popular Indian headgear which made such a decided hit at Kansas City last year. This year they are made of cloth, being hand made by the auxiliary at Oklahoma City.

## Big Hats Remind.

Members of the Frank H. Collins Post No. 111 of Edmond, each purchased a large hat at the time he "signed up" to go to New Orleans. These are to be worn until convention time and act as a constant reminder to other legionnaires that they should get aboard the special train October 14.

## Post Sends Workers.

Triplet Post No. 232 of Fairfax, reports that tab was kept on activities of all members during the summer, 12 of the most active being selected by a committee, and six of those twelve voted a round trip ticket to New Orleans by the post. The scheme netted the post \$500 during the summer and made willing workers out of the entire post membership.

## They Like to Read.

The Department Executive Committee at its meeting September 24 urged that posts see that the "home town papers" and good magazines be sent the soldiers' tubercular sanatorium at Sulphur. Good books are also needed in the library. The department executive committee spent two hours at the university hospital in Oklahoma City, visiting the equipment and visiting with their "buddies" who are patrons.

## Stay at Monteleone.

Oklahoma department headquarters will be opened at New Orleans at the Monteleone Hotel. The Oklahoma delegation will march through from their special trains arriving at New Orleans on the morning of October 16. It is safe to predict that New Orleans will know when Oklahoma "hits town."

## Invite Wives There.

Wives of congressional medal of honor men have been invited to accompany their husbands to the American legion national convention in New Orleans, October 16-20. Their expenses will be paid by the legion convention committee.

## Meeting a Success.

Bartlesville royally entertained the legion during the most successful convention in its history September 11-12. Dances, parade, baseball, athletics, banquets, automobile rides, bands, fire works, boxing, to all of which the legion were admitted free, kept the visitors always busy. Bartlesville set a record for big conventions. Lawton gets the convention next year.

## Here Are New Officers.

New state American legion officials elected at Bartlesville are as follows: Department commander, Dudley C. Monk, Okmulgee; vice commanders, Lee Gilstrap, Chandler; Dr. A. I. Aisenstadt, Picher; and Clyde P. Noe, Pawhuska; national committee member, Wm. S. Key, Wewoka.

## TRAGEDY HOMES IN MURDER DRAW MORBID SIGHTSEERS

Above, at left, the home of Mrs. James Mills, slain choir leader. Below, at right, more palatial home of Rev. Edward W. Hall, killed with her. Above, at right, dilapidated farmhouse which officials believe the two used as a trysting place. At left, below, is Mrs. Mills.

While the morbid walk or ride past the homes of Rev. Edward W. Hall and Mrs. James Mills, choir leader in his church at New Brunswick, N. J., and star of the officials are trying to leave a what

part, if any, the weather-beaten old farmhouse in the woods near the city played in the friendship of the two which brought them to their death. That this farmhouse, known to both, was a

as a trysting place is the belief of police. The bodies of Hall and Mrs. Mills were found near the house. Both had been shot to death. Love letters were strewn about the ground.

## British Fliers, In Bay of Bengal Are left to Fate by Native boat

(By the Associated Press)

LONDON, Sept. 28.—"Below us were sharks; near the land crocodiles. Would we float near enough to ground our inverted top hamper and signal some one ashore, or risk swimming for it? Then our hopes were shattered, for an undercurrent caught our submerged planes and fuselage, and faster than we could near the land, we were pulled away from it. Quickly it raged and our hopes sank. We were utterly helpless and at the mercy of the wind and tide."

The above sentences are taken from the long and thrilling narrative which records the terrible experiences of Captain Norman Mac Millan and Captain Maillins while afloat for 60 hours on a wrecked seaplane in the Bay of Bengal. They were engaged in round-the-world flight organized by the Daily News.

"Suddenly we noticed an alteration in the trim of our craft," continues the narrative. "Round and round we plunged, water pouring over us, hanging on tooth and nail, and soaked by the repeated wash that broke over us. Evidently we were in a tide whirl."

Perhaps the most impressive thing in the story is Captain Mac Millan's account of their abandonment by a native brig which passed near them when they were almost spent.

"Maillins could hear beautiful instrumental music," writes Mac Millan, "and I the sound of the pipes playing laments in the distance. We did not mention this to each other at the time. We were each afraid of that. . . ."

"Suddenly we saw a sail away down south. Was it coming up? Yes, slowly."

"A windjammer. Soon its yards appeared. Gradually it came along. Standing up we could see the hull. It was all we could do to remain upright."

"We waved our distress flag, signalling the international S. O. S. The brig was coming straight for us. She must almost run us down. She could not fail to see us."

"Was she changing her course? Surely not, but she was."

"She turned off not half a mile away, and steadily passed us within half a mile, with two men looking at us from the poop."

"God! what inhumanity! Surely it could not be."

"Maillins frantically waving, slipped and fell half-overboard, cursing at his hurt, cursing the brig and her crew."

"Standing on our rocking float,

I waved and hallowed and fired pistol shots."

"But steadily she swept past us, a native brig. Two men on the poop ran forward as she was abreast of us. They saw us, undoubtedly, and were possibly terrified of ghosts and visions."

"But in mercy let them never know what we felt like."

The two aviators were rescued some hours later by a steam launch sent out in search of them.

## Forest Fire Drives Many Refugees to Duluth for Relief

(By the Associated Press)

DULUTH, Sept. 28.—With several forest fires reported in the district north of here, officials have turned their attention to the removal of settlers who might be menaced by the flames.

More than 20 refugees reached Duluth during the night from Hills Mere, where the flames approached within one hundred feet of buildings on the outskirts of the town. Fires were reported in other districts.

Observers attached to the aero squadron of the Minnesota national guard aided in discovering the fires.

## DAVE BANCROFT DIRECTS FIELD WORK OF GIANTS

(By the Associated Press)

NEW YORK, Sept. 28.—One on the field directing the defensive play that neither John McGraw, the manager, nor his first assistant, Hughey Jennings, could do from their places on the bench, all season has been Dave Bancroft, field captain of the Giants to another pennant.

"Banny" is listed by many of the competent critics of the game to be the greatest shortstop in baseball today. The teams that have won pennants with a poor, or even mediocre man at shortstop—the pivot of the defense—are few and those that have come through winners of the World's Series virtually all had topnotchers.

Before the 1922 season ended baseball writers began casting about for the most valuable man to his team of all the major leaguers and a number mentioned Bancroft, placing him in the class with Joe Tinker, of the Cubs, Hans Wagner, of the Pirates, Rabbit Maranville, of Pittsburgh and Boston, Jack Barry of the Athletics and Red Sox, and a greater player than Arthur Fletcher, now with the Quakers, who was Bancroft's predecessor.

The Giant Captain is of first class calibre both on the defense and offense and as a field general. As a lead-off man he ranks with the best of all time. He covers an amazingly large area in the field and is a pestering, dangerous runner on the bases. He is considered quite a bit better than the cold figures show him to be.

Last season Bancroft hit over 300 for the first time in his career. He began his career as a poor batter and his rise has been due to his superior fielding and inspirational defense. Ten years ago he hit .213 with the Portland, Ore., club, but came up to .254 his first year in the majors with the Philadelphia and was a member of the Quakers the only time that a club representing that city participated in the world series.

In 153 games in which he played last year Bancroft batted .319 and fielded .960, accepting .396 chances—more than any other National league shortstop and making 382 assists, 396 putouts, 39 errors. He batted in 67 runs, went to first base on balls 66 times and struck out only 23 times. He scored 121 runs, made 193 hits, for a total of 267 bases, including 26 two baggers, 22 sacrifice hits and, in addition, he stole 17 bases.

## ALL DADDIES LOOK ALIKE TO THIS KID

Reindeer were first imported into Alaska in 1887 to replace the native aibou.

Alfred Green, who directed Thomas Meighan in the Paramount picture, "The Bachelor Daddy" had his troubles, due to the presence of five children in the cast. Mr. Meighan being supposedly the proxy daddy of five children in this new story which will be screened at the McSwain theatre next Monday.

One of the children had to be a mere baby and for the scenes it was necessary for the child to recognize Mr. Meighan as his daddy. Mr. Green tried little Bobbie Jackson, brother of Charlotte Jackson, the principal child actress in the cast, but Bobby was teething and wouldn't recognize anybody but his mother.

So Bruce Gruen, a bright youngster, was found and told that Mr. Meighan was his daddy. This suited him fine, but Bruce was no respecter of persons. No sooner had he left the scenes than he began to pick up daddies all over the studio. He met Waldemar Young, scenthist and shouted:

"There's my daddy."

Next he chose Walter Hiers, the heavyweight comedian. T. Roy Barnes was then picked out by the youngster. After looking over several others, he pointed to Oscar, the colored bootblack at the studio and in all seriousness said:

"No, that's my daddy."

"We'd better get the boy back near Meighan before he gets too many daddies around here, said Green, and forthwith an order was issued for little Bruce to be kept near the star.

## Where Extra Service is Demanded Firestone Cords Predominate

WHEREVER the exacting and tests of tires are most severe—there you will find Firestone Cords in universal use.

The hard jobs seek Firestone. And so well has Firestone responded under difficult conditions—so consistently has mileage mounted to totals impossible to obtain from ordinary tires that today Most Miles per Dollar is the buying slogan of thinking motorists everywhere.

The blending and tempering of rubber, gum-dipped cord construction, air-bag cure—all these mileage methods have

been developed by men whose life work is the production of constantly increasing tire values for the public.

Users in this vicinity verify Firestone reputation, and report almost daily some new Firestone record of extra distance travelled.

Don't be satisfied to buy tires—buy values—the longest mileage at the lowest price consistent with such reliable performance.

Make Most Miles per Dollar your principle of tire economy—choose your next tire on that basis.

## Paving Resolution No. 12-2

A resolution adopting specifications and estimates of quantities and cost for the paving with concrete and otherwise improving of street improvement district No. 12, same being west main street from the west end of present pavement at the Santa Fe railroad company's track to a line ten feet west of the East side of Bluff avenue together with street intersections on the above described street in the City of Ada, Pontotoc County, Oklahoma.

Be it resolved by the Board of Commissioners of the City of Ada, Pontotoc county, Oklahoma.

First: That, acting under the instructions of the Board of Commissioners, the Engineer has made the necessary surveys and has prepared complete and accurate specifications and estimates of quantities and cost of the improvement hereinafter described, which specifications show the widths of the paving, and which specifications are hereby approved and ordered filed with the City Clerk of the City of Ada, Oklahoma.

Second: That it is necessary to permanently improve said portion of street as set out in the caption of this resolution, which is hereby designated Street Improvement District No. 12 of the City of Ada, Oklahoma, by paving, grading, draining and otherwise improving the same in accordance with such approved plans, specifications, and estimates of cost thereof, so filed with the City Clerk.

Third: That if the owners of more than one half (1/2) in area of the lots and tracts of land liable to assessment to pay for such improvements shall not within fifteen (15) days after the last publication of this resolution file with the City Clerk their protest in writing against such improvement, then the Board of Commissioners shall cause such improvement to be made and assessed for, and shall levy assessments for the payment thereof against such lots and tracts of land liable to assessment to pay for such improvements, as provided for in Sections 608 to 646, Article XII, Chapter 10, of the Revised Laws of Oklahoma, 1910, and amendments thereto.

Fourth: That this resolution shall be published in six consecutive issues of the Ada Evening News, a daily newspaper published and of general circulation in said city.

Passed and approved this 19th day of September, 1922.

## MRS. BUCHANAN MADE STATE HEAD

Shawnee Woman to Lead U. D. C. Organization; Taylor Commander.

(By the Associated Press)

SHAWNEE, Sept. 28. — Mrs. J. M. Buchanan of Shawnee was honored with a state office when the United Daughters of the Confederacy who met here in convention Tuesday and Wednesday selected their 1923 officers. Mrs. Buchanan was elected third vice president, Mrs. C. L. Bradford of Wynnewood being elected president.

William Taylor of Altus was selected major general of the Oklahoma Division of the Confederate Veterans to succeed W. F. Brewer of Muskogee who declined a proposal of re-election. Tate Brady of Tulsa was selected by the Sons of the Veterans to head that organization, this being the seventeenth consecutive time he has been selected to that post. Ada was selected as the 1923 convention meeting place.

Other officers elected by the Daughters of the Confederacy were Mrs. John K. Spears of Oklahoma City, first vice president; Mrs. Frank Kohn of El Reno, second vice president; Mrs. Arthur Walcott of Ardmore, recording secretary; Mrs. O. R. Graham of Pryor, corresponding secretary; Mrs. R. M. Jones of Muskogee, treasurer; Mrs. W. J. Woodliff of Bartlesville, registrar; Mrs. E. Forrest Hayden of Tulsa, historian; Mrs. J. M. Cornelius of Antlers, recorder of crosses; Mrs. R. M. Cavitt of Chickasha, custodian of flags; Mrs. W. E. Gocher of McAlester, auxiliary director; Mrs. G. B. Hester of Muskogee, chaplain; Mrs. W. F. Wallace of Pauls Valley, parliamentarian; Mrs. Elizabeth Cowgill of Edmond, state editor.

## Brigade Commanders Named

The brigade commanders elected by the Veterans yesterday afternoon were T. B. Turner of Oklahoma City, commander of the First Brigade; succeeding C. S. Maupin; T. D. Hogg of Shawnee was re-elected commander of the Second Brigade; J. N. Kimberlin of Pauls Valley was re-elected commander of the Third Brigade; Harvey Hulen of Chickasha was elected commander of the Chickasaw Brigade; Joe F. Thompson of Duncan commander of the Cherokee Brigade; M. M. McDonald of McAlester, commander of the Choctaw Brigade, and J. A. Spaulding of Muskogee, commander of the Creek and Seminole Brigade.

The Sons of the Confederate Veterans elected W. E. Bailey of McAlester commander of the East-

ern Division, with Clinton Ratcliff of Oklahoma City, commander of the Western Division. Rev. J. R. Abernathy of Okmulgee was elected chaplain general, and S. R. Lewis of Tulsa was elected adjutant general.

## Insanity Made Plea of Woman Held Upon Charges of Killing

(By the Associated Press)

LOS ANGELES, Sept. 28. — Insanity will be the defense of Mrs. Clara Phillips, charged with having beaten her husband, Albert Meadows, 20 year old widow, to death with a hammer.

That was disclosed when the public defender, who will represent Mrs. Phillips, submitted to the district attorney copies of interrogatories addressed to 12 persons residing in Texas. They included questions as to the alleged lapses of sanity on the part of the defendant.

A project is on foot to rebuild the Bank of England because the old buildings are hopelessly inadequate to hold the enormous staff which it now needs and which is scattered about the city of London.

There are 41,600,000 men, women and children who work for salaries or wages in this country.

The ice bill of the people of the United States is about \$1,000,000 a day. The northern lakes furnish one-fourth of the total production of the country.

## AMERICA'S FOREMOST STARS TO COMPETE AT NEW ORLEANS MEET.

NEW ORLEANS, Sept. 28.—With an entry list of 1600 athletes and 46 rifle teams, the American Legion national athletic championships, to be held during the legion national convention in New Orleans, October 16-20, loom up as one of the largest meets held in this country.

Reports received at convention headquarters from Legion departments indicate that full track and field teams will be brought to the gathering. In addition to the 46 rifle teams from the various departments, hundreds of individuals will shoot for medals in the Legion tree-for-all. Entries in all athletic events close October 1.

### Hold World Records

The list of names of athletes participating reads like a roster of the country's best athletic talent. Many Legion men entered have held or now hold world records.

California's track and field team will be led by Charles Paddock, world's champion and holder of the record for the 100 yard dash, his time for that distance being 9 and three-fifths seconds. In a recent athletic carnival held at Stanford University stadium, winning ex-service men were chosen to represent California in all events. Their rifle team is said to be strong.

Johnny Weismuller, champion speed swimmer, and Norman Ross, interlarded Olympic swimmer, are among the entrants. Weismuller will endeavor to break some of his own records at the Audubon Park Lagoon where the swimming will take place. J. S. Prescott, low hurdle record holder, and H. E. Hagan, 220-yard man of intercollegiate fame, will run for Illinois and Bob Gardner, former national amateur golf champion, will be among the entrants.

### He's Champ Oarsman.

Walter Hoover, world's champion oarsman, has challenged all comers. He represents the Minnesota department of the legion which has challenged all other departments to four and eight oar rowing races. A complete track and field team will be put in the field by the Minnesota department.

Fifteen swimmers, who made records at Lakewood, Ga., in the legion state department meet, will come to New Orleans. Track and field men were also chosen at the Georgia contest.

In addition to the Marine rifle team from Quantico, Virginia is sending three athletes who are record holders in their chosen events. Francis H. Byrd, jumper, is just a shade under the world's record in standing and running broad jumps in addition to being a formidable weight man. Charles McDermott will enter the discuss and 56 pound weight. McDermott was Navy heavy-weight boxing champion while in the service and is expected to carry off the legion title in amateur heavy weight bouts. Dr. Walter E. Miller, who was one of the runners-up in the recent golf play at Brookline, Mass., will lead Virginia's golf team.

### Select Contestants.

New York, Kansas and Nebraska legionnaires are holding their athletic carnivals during the latter part of this month and will finish them in time to announce their entries prior to October 1. Reports from these states show that ex-service men have been in training throughout the entire summer in preparation for the finals to win the honor of coming to New Orleans as state athletic representatives.

One hundred and fifty ex-service men will take part in the amateur boxing and wrestling bouts. Tennessee is sending many star tennis players as well as full track and field and aquatic teams.

Louisiana sport writers believe that men from that state will have a shade the better of other contestants because they are acclimated and are training on the grounds that will be used for the contests. In the rifle events Louisiana will stand well up among the leaders, since its team is composed of nationally known shots who have been in constant practice for the last three months. Included in its membership are Colonel Guy Molony, superintendent of New Orleans police, Henry Haffner, Emile Sevin, Captain E. C. Nicholas and Lieutenant G. L. Shaw.

### Rebuild Stadium.

Tulane University stadium track, where running events will be held, will be entirely rebuilt during the next few weeks. The present track will be sacrificed and a new bed of cinders laid.

The legion proposes to make its athletic events an annual feature of national conventions. Athletic activities are supervised by a national athletic commission appointed by National Commander Hanford MacNider. Its members are J. R. Murphy, former university of Iowa football star, chairman; Grantland Rice, sporting editor, New York Tribune; Sam H. McKeekin, sporting editor, Louisville Courier-Journal; Frank Flannery, Chicago, former Washington and Jefferson star and Millard F. Kohler, legion director of athletics in Kansas. Al C. Lindberg, Chicago, former track, football and baseball star of the University of Illinois.

## AMUNDSEN WILL TAKE MAILS BY AIR TO EUROPE

(By the Associated Press)

SEATTLE, WASH., Sept. 28.—One of the most spectacular chapters in the annals of world wide postal delivery may be written when Captain Ronald Amundsen, famous Norwegian explorer, wings his way across the top of the world in his proposed attempt to fly an airplane from the tip of Alaska to Northernmost Europe via the North Pole.

With him in his monoplane will ride a mail sack containing letters written by Nome residents for delivery to friends in Europe.

If the weather conditions had not forced a postponement of the flight until next year, these letters might have reached their destination a week ahead of the time required to make delivery by the established routes. As it is, arriving perhaps more than a year later, they will have a priceless historical value to their recipients who will doubtless follow the affairs of their explorer-postman with intensified interest.

According to a report by Postmaster Walsh of Nome to local postal officials, the letters were written when Capt. Amundsen was about to depart from the mining camp on his way to Wainwright, 100 miles southwest of Point Barrow, where he will later await favorable conditions for his proposed flight.

## JONES ASKS HELP TO PREVENT FIRE

Chief Urges City to Keep  
Up Its Reputation as  
Careful Town.

Importance of citizens co-operating with fire departments in fire prevention to cut down the annual fire loss is shown in a signed statement today by Somer Jones, chief of the local fire department, in connection with annual fire prevention week, which will be observed October 2 to 9. Following is his statement in full:

"The week of October 2 to 9 has been designated by the president of the United States and the governor of Oklahoma as fire prevention week. We have been extremely fortunate in Ada in not having any bad fires, much more so than in many larger cities. Take Dallas, Texas, for instance, they have suffered very heavily this year although they have one of the best equipped and manned fire departments in the United States. This goes to prove that fire loss is not kept down through the efforts of the fire department altogether.

"The citizens can render invaluable aid in co-operating with the fire department in the future as they have so well done in the past. To remind you again, most fires are caused by defective wiring, defective flues or chimneys or faulty gas connections, all of which can be prevented if proper care is taken. I want again to call your attention to the danger of using flexible or rubber connections to your gas burners. It is almost criminal to even think of using them, as many fires are caused and many lives are lost through their use.

### Screen Rubbish Fires.

"Many fires are caused by burning rubbish in the open. A screen should always be used to prevent burning fragments from blowing into grass, out houses, etc. Burning grass always gives the fire department more or less trouble and this should be burned always on still days and carefully watched.

"In reporting a fire be sure of the street on which the fire is located, also the direction, east, west, north or south, giving block number if possible. Just call central and say: 'Give me the fire department, I

She's An  
Officer  
In  
Three  
Oil Companies

Widowhood is a double tragedy for most women. But when the husband of Sarah C. S. died, she was not compelled to exist on the charity of relatives, nor to do menial work at small wages.

Mrs. S. had received a business training at HILL'S BUSINESS COLLEGE before her marriage. She worked for her board and room while attending school. So when Mr. S. died, the plucky little wife had no difficulty in obtaining a good job with an oil company.

Today, so rapid has been her advancement, she is secretary of one Oklahoma oil company, and a director in two others. Her annual earnings run into the thousands of dollars.

Every ambitious Oklahoma girl can draw a lesson from the example of Mrs. S. If you are not satisfied with your present job or prospects, fill out the coupon below. It will bring HILL'S SUCCESS BOOK, which tells you how YOU, TOO, CAN SUCCEED. Mail it now. You are under no obligation. You can enroll any Monday.

wish to report a fire? Don't leave the telephone until the alarm is received at the fire department, as you will talk direct to the department. Central will stay on the line to see there are no mistakes made as to location of fire.

"Let's go the president one better and make every day in the year fire prevention day. Ada has the reputation of being the 'fireless town.' Let's keep it."  
—SOMER JONES,  
"Fire Chief."

## \$50,000 in Alimony Given Indian Girl in Ponca City Suit

(By the Associated Press)

PONCA CITY, Sept. 28.—Alimony in the sum of \$50,000 with attorney fees of \$7,500 was granted Pansey Plomondon, pretty Kaw Indian girl of 19 years of age, from George Plomondon, who, it has been claimed, is one of the wealthiest of the Osage tribes. He is said to be worth a million and to have an income of \$30,000 a year.

The girl claimed Plomondon persuaded her to leave school to marry him, promising to divide his property with her. Infidelity was the grounds for the divorce. Mrs. Plomondon claimed that she caught her husband with another woman in Pawhuska.

Mrs. F. Rhodes of Monticello, Ill., at the age of 80 is probably the oldest active farm woman in the country.

Greenland is Denmark's only colony.
